

## MANUFACTURER'S WARRANTY

Dear Madam or Sir,

every aluminum element of the Clever Frame® system is under a 10 year warranty. All other parts, including but not limited to, graphic panels, bags and other non-aluminum elements are under a 12 month warranty.

Please note: we perform painting of structural components of the system upon Customer's request – the paint coating carried out as part of custom-made orders is not subject to complaint processes.

A detailed information regarding the proper use of the Clever Frame® system or the warranty conditions can be found in the „Clever Frame® terms of use”. These provisions are valid until further notice, whereby the warranty periods can not be shortened.
